EFN role in the EU & EFN governance structure

EFN Policy Agenda

The EFN provides a broad platform for developing health and social EU policy by supporting the European Union decision making process on all areas which affect the nursing profession, and aims to bring to the attention of the EU the current and potential collaboration of nurses and nursing to meeting the health needs of the population throughout the Union.

The European Union, What's in it for me?

Paul De Raeve, 2017

This book offers nurses a valuable and insightful resource into the politics and strategic direction of health policy that shapes frontline nursing and midwifery practice in the EU.

The EU faces many challenges. Nurses and nursing are part of the solution. It looks like the EU citizens have enough of the nice talks of politicians, enough of their political promises prior election. Therefore, it is important civil society, nurses ask themselves in which world they want to live and work; how nursing need to push for change in the changing world; and what should be in for nurses who provide daily care for the most vulnerable in our complex society. But when moving forward, the main question for many citizens will be: the EU, what's in it for me? Indeed, since 2008, when the financial crisis hit ordinary EU citizens very hard, especially nurses and women, more challenges to daily survival started to surface. Is the EU, its institutions, its political games, just a complex political labyrinth nobody wants to understand? Are EU civil servants simply producing legislation in view of their own created cocoon, far away from daily reality? But how can we bring ordinary EU citizens closer to the European project, its solutions? Nurses, women, play a key role in making the EU, health & wellbeing, prosperity and peace work for EU citizens, trusting nurses most!

Free Movement of Nurses in the EU

Directive 2013/55/EU

amending Directive 2005/36/EC on the recognition of professional qualifications

*This Directive aims to consolidate and
modernise the rules regulating the
mutual recognition of professional
qualifications in the EU Member States,
including for general care nurses.*

DIRECTIVE 2013/55/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL

of 20 November 2013

amending Directive 2005/36/EC on the recognition of professional qualifications and Regulation (EU) No 1024/2012 on administrative cooperation through the Internal Market Information System ('the IMI Regulation')

(Text with EEA relevance)

THE EUROPEAN PARLIAMENT AND THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular Articles 46, 53(1) and 62 thereof,

Having regard to the proposal from the European Commission,

After transmission of the draft legislative act to the national parliaments,

Having regard to the opinion of the European Economic and Social Committee⁽¹⁾,

Acting in accordance with the ordinary legislative procedure⁽²⁾,

Whereas:

(1) Directive 2005/36/EC of the European Parliament and of the Council of 7 September 2005 on the recognition of professional qualifications⁽³⁾ consolidated a system of mutual recognition which was initially based on 15 Directives. It provides for automatic recognition for a limited number of professions based on harmonised minimum training requirements (sectoral professions), a general system for the recognition of evidence of training and automatic recognition of professional experience. Directive 2005/36/EC also established a new system of free provision of services. It should be recalled that third-country family members of Union citizens benefit from equal treatment in accordance with Directive 2004/38/EC of the European Parliament and of the Council of 29 April 2004 on the right of citizens of the Union and their family members to move and reside freely within the territory of the Member States⁽⁴⁾. Third-country nationals may also benefit from equal treatment with regard to recognition of diplomas, certificates and other professional qualifications, in accordance with the relevant national procedures, under specific Union legal acts such as those on long-term residence, refugees, 'blue card holders' and scientific researchers.

(2) In its Communication of 27 October 2010 entitled 'Single Market Act, Twelve levers to boost growth and strengthen confidence, Working together to create new growth', the Commission identified the need to modernise Union law in this area. On 23 October 2011, the European Council in its conclusions supported such a modernisation and urged the European Parliament and the Council to reach a political agreement on the revision of Directive 2005/36/EC by the end of 2012. In its resolution of 15 November 2011 on the implementation of the Professional Qualifications Directive (2005/36/EC)⁽⁵⁾, the European Parliament also invited the Commission to come forward with a proposal. The EU Citizenship report 2010 of 27 October 2010 entitled 'Dismissing the obstacles to EU citizens' rights' underlines the need to lighten the administrative burden linked to the recognition of professional qualifications.

(3) Notaries who are appointed by an official act of government should be excluded from the scope of Directive 2005/36/EC in view of the specific and differing regimes applicable to them in individual Member States for accessing and pursuing the profession.

(4) For the purposes of strengthening the internal market and promoting the free movement of professionals while ensuring a more efficient and transparent recognition of professional qualifications, a European Professional Card would be of added value. In particular, that Card would be useful to facilitate temporary mobility and recognition under the automatic recognition system, as well as to promote a simplified recognition process under the general system. The purpose of the European Professional Card is to simplify the recognition process and to introduce cost and operational efficiencies that will benefit professionals and competent authorities. The introduction of a European Professional Card should take into account the views of the profession concerned and should be preceded by an assessment of its suitability for the profession concerned and its impact on Member States. That assessment should be conducted together with Member States, where necessary. The European Professional Card should be issued at the request of a professional and after submission of necessary documents and completion of related verification procedures by the competent authorities. Where the European Professional Card is issued for the purpose of establishment, it should constitute a recognition

The European Court of Justice

Since its establishment in 1952, its mission has been to ensure that "the law is observed" "in the interpretation and application" of the Treaties. As part of that mission, the Court of Justice of the European Union reviews the legality of the acts of the institutions of the European Union; ensures that the Member States comply with obligations under the Treaties; and interprets European Union law at the request of the national courts and tribunals.

European Semester - Country Specific Recommendation (2016-2025)

Country-specific recommendations provide tailored advice to individual Member States on how to boost jobs, growth and investment, while maintaining sound public finances.

The Commission publishes them every spring. They give guidance on what can realistically be achieved in the next 12-18 months to make growth more sustainable, inclusive and stronger.
